COUNTRYSIDE VETERINARY CENTER

Project Location: Countryside, Illinois

Project Area: 16,370 S.F.

Cost of Construction: \$3,600,000

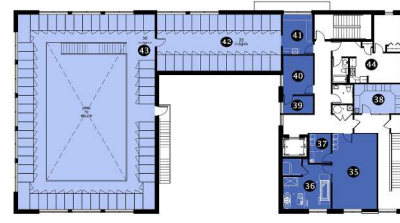

Date of Completion: 2014

Architect: Linden Group Architects

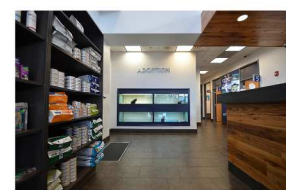

Project Description:

The Countryside Veterinary Center's design focused on creating a modern clinic that was inviting to clients and patients. Their goal was to provide the convenience of multiple services in one place, with the accessibility of appointment free extended hours. The two story building includes approximately 19,000 S.F. of floor area. Natural materials on the façade such as brick and stone anchor the building to the site and a two story glass lobby invited clients into the reception area of the facility.
