ANIMAL CARE CENTER OF DOWNERS GROVE

Project Location: Downers Grove, Illinois
 Project Area: 12,305 S.F.
 Cost of Construction: \$3,150,000
 Date of Completion: April 2018
 Architect: Linden Group Architects

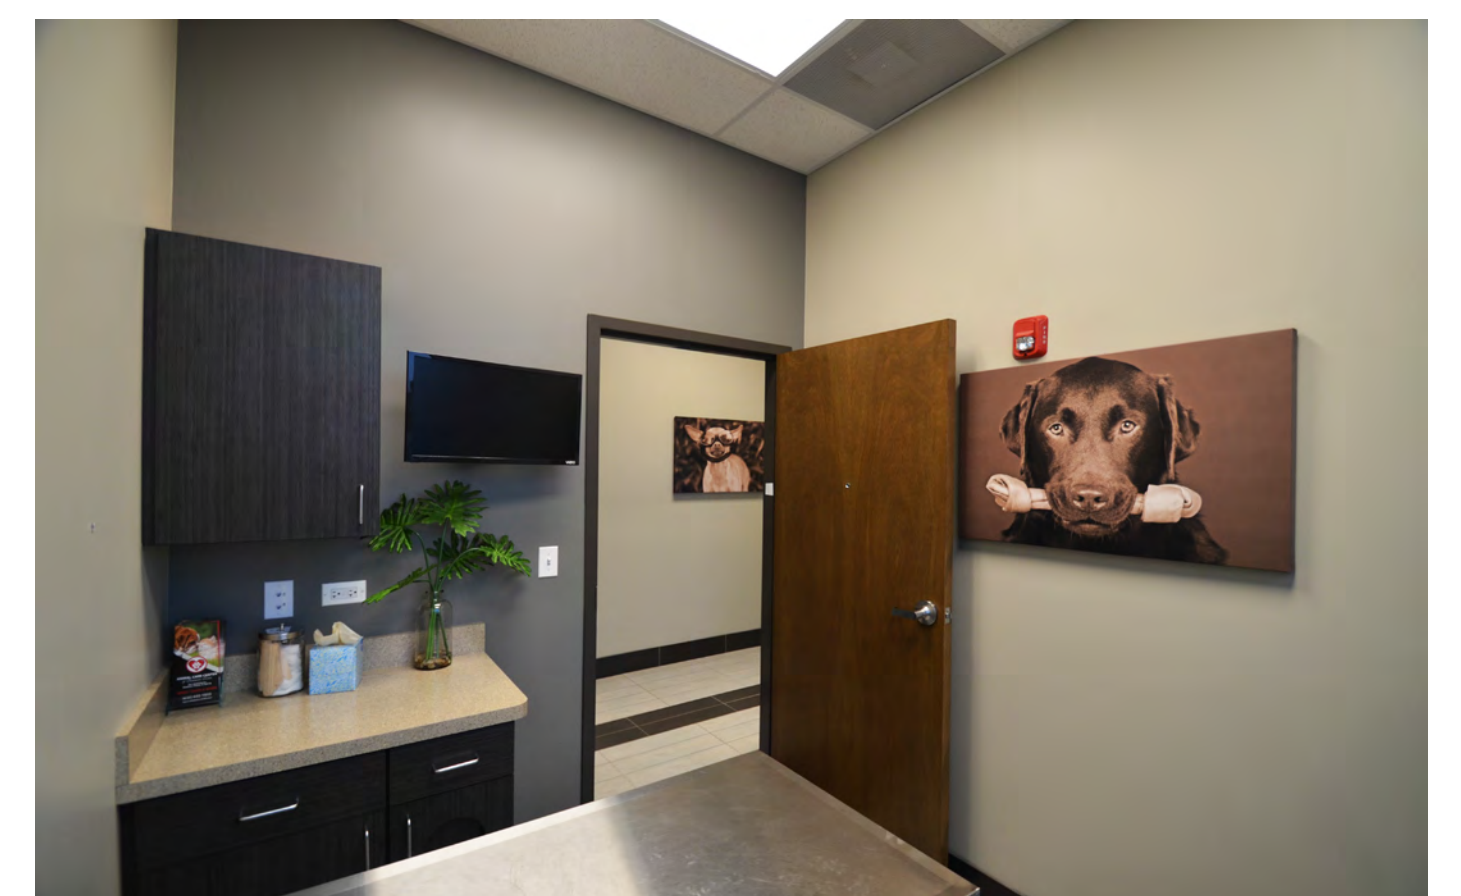

Project Description

The Animal Care Center of Downers Grove represents an image for animal care services aimed at representing a modern clinic with state of the art care. The architecture was defined with masonry, metal panels, and a two story glass lobby. The two story building includes a generous lobby, adoption display, 9 exam rooms, large treatment room, two surgery suites, dental treatment area, intensive care unit, isolation wards, grooming room, dog dare care play room, and both dog and cat boarding rooms. The entrance welcomes clients and their pets with a light filled lobby and friendly customer service that greets you as you enter. Interior finishes feature a variety of warm woods, natural stone, and coordinating colors that invite clients in an create a calming mood for the animals as they wait and receive services.
